

The image shows three crates of compost on a white table outdoors. The crates are labeled 'COMPOST After 0 Days', 'COMPOST After 40 Days', and 'COMPOST After 70 Days'. The 0-day crate is green and contains a light brown, clumpy material. The 40-day and 70-day crates are dark blue and contain a darker, more uniform brown material. The background shows a large green field with a fence and a utility pole under a cloudy sky.
