Dairy Production Feed Additives

- Suitable for all stages and ages
- Small application/inclusion rates
- Premix or add to feed (TMR)
- Economical and easy to use
- Application
 - Milk cows
 - Dry cows
 - Heifers
 - Bulls
 - Calves

For optimal performance, animals need to feel healthy, be stress free and be able to fully metabolize feed and nutrients. Penergetic t can be taken by bovines in minute doses by all ages and stages.

APPLICATION

Penergetic t can be mixed into the animals' feed, TMR, milk or drinking water.

[Note: Not negatively affected by pelletizing process.]

Penergetic t for animals

Regular Dose	5 g per day per livestock unit (LSU) *
--------------	--

* A mature cow equals one (1) LSU.

Penergetic t for cows

Regular Dose	5 g per day per LSU
Accelerated Dose	20+ g per day per LSU
External Use	mix 10 g with 100 ml of udder cream

Penergetic t for calves

Age (weight)	Preventative	Acute
Birth (95 lbs.)	2 g / day	2 times 2 g / day
30 days (115 lbs.)	3 g / day	2 times 3 g / day
60 days (175 lbs.)	4 g / day	2 times 4 g / day
90 days: (240 lbs.)	5 g / day	2 times 5 g / day

* For acute conditions use for 7 – 14 days then revert to preventive rate.

Penergetic t for bulls

Regular Dose	8 g per day per bull
--------------	----------------------

COMPLEMENTARY PRODUCTS

- **penergetic g (slurry activator)**
- **penergetic k (compost & bedding management)**
- **penergetic w (water remediation)**
- **AquaKat (water vitalization)**
