the natural biotechnology

Swine Production Feed Additives

- Suitable for all stages and ages
- Small application/inclusion rates
- Premix or add to feed
- Economical
- Application
 - Sows
 - Feeders
 - Gilts
 - Boars
 - Weiners

For optimal performance, animals need to feel healthy, be stress free and be able to fully metabolize feed and nutrients. Penergetic t is administered to pigs at small inclusion rates.

APPLICATION

Penergetic t can be mixed into the animals' feed, milk or drinking water.

[Note: Not negatively affected by pelletizing process.]

Penergetic t for pigs

Regular Inclusion Rate	5.25 oz. per finished ton of feed
------------------------	-----------------------------------

Penergetic t for piglets

Acute	3 g / piglet / day for 3-5 days
Prophylactic (preventative)	2 g / day

* For acute conditions use for 7 – 14 days then revert to preventive rate.

Penergetic t for boars

Regular Application Rate	3 – 4 g / boar / day
--------------------------	----------------------

RESULTS

Study 1 (Finishers): Comparative study of penergetic t in control group and test group.

Feeding: Both groups received conventional feed. Control group also received penergetic t (2.1 oz./ton of feed).

Results: Test group (penergetic): no coughing, calmer, normal lymphocytes, reddish meat colour, no meat smell
Control group (without): frequent coughing, easily startled, enlarged lymphocytes, dark meat colour, unpleasant meat smell.

Study 2 (Piglets): Penergetic t administered to two groups of piglets (24-30 days old at start) for 32 days.

Results: penergetic t group showed 7.7% greater increase in weight gain.

Study 3 (Piglet scours): testing penergetic t (2g twice daily) on various populations of piglets with scours.

Results: whether sprayed on feed, mixed into feed or included in drinking water, scours disappeared within three days.

* DUE TO A NUMBER OF FACTORS, ACTUAL RESULTS EXPERIENCED AT YOUR FARM MAY DIFFER FROM THOSE SHOWN ABOVE.

COMPLEMENTARY PRODUCTS

- penergetic w (water remediation)
- AquaKat (water vitalization)
- penergetic g (slurry activator)
- penergetic g(k) (slurry with high fibre)
